

What do our pupils think...

I love everything I do here. The teachers really help me. This is the best school.

The books we read are fun and really develop our imagination. I love discussing the books with my class and teacher.

All the teachers really help us and teach us well. My teacher expects me to work hard, I really like that.

We get to go on some amazing trips! They help us with our learning too.

If we are worried our teacher and lots of adults will talk to us and help us.

We get to do activities straight away. I really like art and science. I like experiments.

We have fun lessons like cooking and D&T. We get to design things.

I like the PE lessons, we get more active and the lessons are fun. I can now run faster and longer.

Our lessons are creative and I like work in groups. I enjoy maths, I like the super challenges.
